International Essentials 2006

Information and resources for The Scout Association's Global Team

Updates

The latest version of *International Essentials* is always available for download from the international pages on ScoutBase at www.scoutbase.org.uk/ps/inter/team/support.htm. Comments and suggestions for additions to *International Essentials* are always welcome. Please contact the International Office in the first instance.

Although in some parts of the British Isles Scout Counties are known as Areas or Islands - and in one case Bailiwick - for ease of reading *International Essentials* simply refers to County/Countries. When the word 'County' is used, it should also be read as Area, Island or Bailiwick as appropriate.

Originally published as the International File and re-issued as International Essentials in 2002, this edition was fully revised by: David Bull, Sarah Hobbs, Jackie Martin, Andy Mitchell, John Simmons, Craig Turpie and Kevin Wallis
